

The Return of the Flock

EMAIL TO THE WASHINGTON COLLEGE COMMUNITY

CPG Update - 11/12/21

To the Washington College Community,

First things first, we want to wish the Men's Soccer team continued success, as they compete this weekend in the NCAA Division III Tournament. This is only the second time in our school's history that the soccer team has earned a spot in the tourney, and we send them off to NJ with our full support and pride for all that they have accomplished so far. They face St. Lawrence in the opening round tomorrow at 3:30 PM – you can [watch the livestream here!](#) **Let's GO SHOREMEN!**

And now back to our regularly schedule CPG News...

HOLIDAY SEASON & TRAVEL

The holiday season is almost here, and while we are all looking forward to enjoying time together with friends and family in what is starting to feel like a more normal time, **please remember that we are not out of the woods yet as it relates to COVID.** We urge you to be diligent in following standard safety practices during any holiday travel, and remain cautious about your activities during the break. We will all be coming back together as community for the last few weeks of the semester after the Thanksgiving break and we want to do so as safely as we have the last couple of months. So be sure that during travel you mask up, maintain social distancing when possible, and wash/sanitize your hands frequently. If possible, visit with friends and family outdoors, and/or limit the size of your gatherings.

POST-HOLIDAY TESTING

Be advised that we are considering increased COVID testing upon our return from the Thanksgiving break. This is still under review, but possible options include one-time testing upon return, or testing of a certain % of our entire community, including those who are fully vaccinated. We will share details about any testing requirements as soon as the decision is made, so please keep an eye out and be prepared to comply with any testing requirements.

As always, thank you for all your efforts this semester to stay safe and healthy, and to put the interests of our entire community first.
